

# Action Pave<sup>®</sup>

## Professional-Grade Pavement Sealers

# The Best Defense For Your Pavement.

Crafco's Action Pave<sup>®</sup> sealers provide asphalt pavement maximum protection against oil, gasoline, salt, sun, and weather — while also enhancing its visual appearance. Our proprietary, climate-specific formulations meet or exceed federal specifications. Whether you need a traditional refined tar sealer or an evolved solution, Crafco has you covered.

# Delivering consistency in performance and appearance.

Action Pave high-performance sealers protect your pavement from damage while enhancing its visual appeal. We continually research to produce cutting-edge sealers and test each batch to ensure the highest standards of quality. The success of our customers and partners is our top priority. CrafcO's expert team delivers superior service, ensuring a positive experience every time. We have numerous tools and resources available through our sales representatives, CrafcO Pavement Preservation Supply Centers and our website, CrafcO.com.

## Action Pave AE

**Action Pave AE** is an asphalt emulsion sealer offering both protection and beautification in a nonhazardous, environmentally friendly formula. Action Pave AE has minimal odor and the environmentally responsible formula allows the material to be used in regions that have coal tar bans or similar restrictions.

## Action Pave RT

**Action Pave RT** is a refined coal tar sealer with proven resistance against water, sun, salt and chemicals. It goes on easily, dries fast, and cleans up with water. With a rich, black finish and outstanding durability, Action Pave RT offers both a beautiful appearance and reliable protection.

## Action Pave LP

**Action Pave LP** is a water-based resin emulsion sealer with outstanding toughness and water repellency. Suitable for applications ranging from home driveways to truck terminals, Action Pave LP minimizes odors during installation and provides a durable, flexible seal to protect against damage and deterioration.
